

NSW Biosecurity Resources for Stock Feed Manufacturers

Stock Feed Manufacturers' Council of Australia Meeting

Biosecurity – a shared responsibility

General Biosecurity Resources

NSW Biosecurity Website

Website: www.dpi.nsw.gov.au/biosecurity

Description: Central hub for NSW biosecurity information, including legislation, compliance requirements, fact sheets, and emergency response protocols.

Report a Pest or Disease

Website: www.dpi.nsw.gov.au/dpi/biosecurity/report-a-pest-or-disease

Description: Help protect our economy, environment, and community by reporting suspect pests, diseases or other biosecurity concerns.

General Biosecurity Enquiries

NSW DPIRD Biosecurity General Enquiries: 1800 084 881

Email: biosecurity@dpi.nsw.gov.au

National Biosecurity Training Hub

Website: biotraininghub.com.au

Description: A national hub of easy-to-navigate biosecurity training.

Farm Biosecurity

Website: www.farmbiosecurity.com.au

Description: Includes information to help producers understand disease, pest and weed risks, what they can do to reduce those risks, and how to go about it.

Animal Biosecurity Resources

Emergency Animal Diseases

Website: www.nsw.gov.au/regional-and-primary-industries/livestock/health-diseases/emergency-animal-diseases

Description: Comprehensive information on notifiable diseases, emergency response procedures, and industry preparedness.

Stock Feed Control and TSE Freedom Assurance

Website: www.dpi.nsw.gov.au/biosecurity/animal/stock-feed-control

Description: Requirements for stock feed manufacturing to maintain Australia's Transmissible Spongiform Encephalopathy (TSE) freedom status, including ruminant feed regulations.

Plant Biosecurity Resources

NSW Plant Biosecurity

Website: www.dpi.nsw.gov.au/dpi/biosecurity/plant-biosecurity

Description: Overview of plant biosecurity threats, surveillance programs, and reporting requirements for crop diseases.

Invasive Plants and Animals Resources

NSW Invasive Plants and Animals

Website: www.dpi.nsw.gov.au/dpi/biosecurity/invasive-plants-and-animals

Description: Overview of invasive threats, surveillance programs, and reporting requirements for invasive plants and animals.

NSW WeedWise

Website: weeds.dpi.nsw.gov.au

Description: Searchable database of over 300 weeds in NSW, including identification, legal status, control methods, and regional biosecurity plans.
